

## PRODUCT DESCRIPTION

### ICE Stickers

Version 2.1

ICE Stickers are used to save your medical alert information and to have this information easy available in case of an emergency. The stickers are put on any item you wear or carry with you.

Feature	Description
Stickers	Stickers with adhesive to attach to any item you wear or carry with you. The size of the stickers are 46x22 mm.
Laminated and water resistant polypropylene (PP)	Sticker material: PP TOP WHITE / S692N / BG45WH
Available in three different packaging sizes	1-packs (60x87 mm), 2-packs (60x87 mm) and 5-packs (60x200 mm)
Info inlay	The packaging includes an info inlay with help instructions
Web service	Each sticker is connected to a Taggisar web service
Unique QR code	Each sticker has a unique QR that leads to the connected web service
Unique Taggisar URL	Each sticker has a unique Taggisar URL that leads to the connected web service
Taggisar App for iPhone and Android	To scan the QR code a Taggisar QR scanner app is available for free download at Apple App Store and at Google Play
Configuration wizard	When scanning the QR code or visiting the unique Taggisar URL on each sticker you reach an easy wizard to fill in your information.
Emergency contact	In the Taggisar you save contact information to people to contact in case of an emergency
Medical alert information	In the Taggisar you save medical information like allergies, current medications and if you have any diseases
Personal information	In the Taggisar you save your name and date of birth. Recommended is also social security number and insurance number.
Personal photo – a selfie	In the Taggisar you can upload one or several pictures of yourself for identification.
Medications log	If you have several current medications, this can be entered in a separate section available via the Medications button. This section

	presents when the information was edited and by who.
Geographical position	The GPS coordinates latitude and longitude can be read out from the smartphone scanning the Taggisar. If this feature is enabled, the coordinates will be displayed on the first page as soon as they are available, or when clicking the View Position button.
Send Alarm	By clicking the Alarm button, you can send a text message to the emergency contact persons. The message will be sent as an SMS if a mobile number has been entered, and as an email if an email address has been entered. The message will include a link to your Taggisar and you a map showing your location (if GPS coordinates was received from the phone) NOTE: Mobile numbers must be entered in international format, like: +44 958 23 1242
Send "I am OK"	If you have sent an Alarm but would like to signal you are fine, you can send an "I am OK" message.
Send "I am here"	If you would like to inform your emergency contacts where you are, you send this message that also will include a link to a map showing your location.
Automatically share current position at a scan	By this feature email messages including a link to a map with the current position will automatically be sent upon a scan. For example, you as a parent can subscribe to messages from a Taggisar put on your child's bicycle helmet.
Connect ICE stickers	If you have several ICE stickers and would like to display the same information in all of them, you can connect them to each other. You only enter your information into one Taggisar and then link the other ones to this one.
App Icon	For easy access of your own ICE sticker, you can save your ICE Sticker to the home screen of your smartphone.
PIN code	Each sticker has a PIN code to lock and unlock the sticker for editing.
Change PIN code	The PIN code can be changed to any code you like
Forgot PIN code	If you have forgotten your PIN code, you can enter your email address to have it sent to you.
Registration email	After registration of an ICE sticker, you will receive an email confirming your registration. The email includes the PIN code and the link to

	reach the Taggisar.
Multi Language Support	The default language in the Taggisar is English. Under Settings you can choose from several other languages. Both the service (instructions, menus and buttons) and your personal entered information will be translated.
Print Ice Card	This feature creates a PDF file to be printed including the information you have entered into your Taggisar. The printed PDF can then easily be folded and put in your wallet or in any other suitable place.

### The ICE Stickers 2-pack

### The info inlay inside the packaging
